

Additional Resources: Big Data Architecture

This reference document is designed to complement and enhance the material we have covered in **Big Data Architecture**.

References:

1. A resource article from MongoDB discussing big data architecture.

[What is big data architecture?](#)

2. A resource document from Microsoft that discusses big data architectures within Azure.

[Big Data Architectures](#)

3. A Medium blog post discussing big data architecture and its frameworks.

[Big Data Architectures: Key Frameworks for Scalable Data Processing](#)
